# Day – 8- Report (Work Summary)

## INTERNSHIP AT AKASHTECHNOLABS

### ❖ Day-8 : What we learnt ?

- ✚ Today, we have learnt to navigate through multiple pages in the project using different URLs and its associated function in the views.py file of application.
- ✚ We also learned to setup the path of static and templates file which is using to keep CSS file, JS file, images and html files.
- ✚ We also learned to load files of static folder in html file using below syntax:
  - {% load static %}
