## Day – 10- Report

### (Work Summary)

#### INTERNSHIP AT AKASHTECHNOLABS

#### ❖ Day-10 : What we learnt ?

- ✚ This was our last days of this amazing internship. In this session we learned about databases and its applications.
- ✚ Django has inbuilt support of mainly five databases.
  - PostgreSQL
  - MariaDB
  - MySQL
  - SQLite
  - Oracle
- ✚ Then we learned how to connect MySQL and SQLite databases to our Django project and perform basic operations on databases with use of our Django application.
- ✚ Then we learned how make models and how to migrate into our connected databases.
- ✚ Then we learned how to perform CRUD operation separately. And saw how those work.
- ✚ Then we discussed some problems and errors which were coming to some student and solve them.

## Shani Baladhiya

- ✚ Then we also discussed which are various platforms where we can deploy our Django project very easily.
- ✚ After that we jumped into Latest Technologies and discussed about them that which technologies are ruling market at present and also will rule in coming years.
